

# DISCOVER THE ACADEMY ADVANTAGE.

## Montessori beginning

The Montessori curriculum and environment are designed to maximize your child's potential from age 2 1/2 through Kindergarten. Provided with the resources for exploration and discovery, students develop life skills and experience the joy of learning through hands-on activities.

## Moral development

The Academy prepares students through Christian principles and moral teachings to become effective leaders, responsible citizens and caring stewards. Chapel assemblies and Christian Life classes help students develop strong moral values.

## Academic excellence

Academic rigor in core subjects is complemented by a wide array of offerings in world languages, the arts and athletics. An 8:1 student to teacher ratio enables students to reach their fullest potential, preparing them for advanced studies in high school, college and beyond.

THE GROSSE POINTE  
**ACADEMY**

All-School Open House, 6-8 p.m. ♦ Montessori Info. Night, 6 p.m.

Wednesday, March 7

## Growing up is hard enough.

If you have a child who has difficulty with motor skills, communication or coordination, we're here to help.

At the Center for Children's Rehabilitation in St. Clair Shores, you'll find the most comprehensive team of specialists for the treatment of gross and fine motor, speech, language, feeding and swallowing disorders:

- physical therapy
- occupational therapy
- speech and language treatment

If you're concerned, please call today: 586-443-4477.
